

PROCEDURES FOR VEHICLES ENTERING THE FARM

| | |
|----------|---|
| 1 | No vehicle carrying pigs should enter the unit at any time |
| 2 | All vehicles must have been disinfected and cleaned and before arrival |
| 3 | All pigs leaving the farm by must do so via the loading ramp |
| 4 | Ideally the loading ramp should not be used for incoming pigs |
| 5 | The feed pipe connecting to the feed bins must be cleaned and disinfected before arrival and arrangements with all feed suppliers made for this to be completed <u>It is preferable to supply your own feed pipe</u> |
| 6 | The driver must dip his feet close to the feed bin prior to activity on the farm or only use farm boots provided |
| 7 | If infectious diseases occur nearby special precautions will be needed |
